VINITA, IND. TER., DEC. 24

NO SYMPATHY DUE

In connection with the story of Louis Cohn's arrest and conviction at Wagoner for selling whisky, is given the information that he is 70 years old. No false sympathy need be wasted on Louis Cohn. He is not 70 years old and even if he was it should be no bar to his punishment. For years he has been a malefactor and how he has escaped punishment has been beyond the ken of those outside the judiciary department. Cohn's example has stimulated many an obscure individual to persist in selling whisky and he is indirectly responsible for the imprisonment which has followed. Vinita's introduction to Louis Cohn dates back 20 years, when he used to appear at the fair here with the three little shells of the commonest tinhorn gambler.

Muskogee much desires a hospital.

Nobody never has money enough Christmas.

There will be no daily paper issued from this office Christmas day.

That Muskogee will get her overall factory is a consummation devoutly to be wished.

South McAlester wants to buy a fire department team, three to five years old, 2700 to 2800 pounds weight.

The man who is not dead sure that 1904 will be the greatest year Vinita ever saw is a hopeless pessimist.

H. B. Spaulding, of Muskogee, has been appointed democratic national committeeman for the Indian Territory by Chairman Jones.

The Pevor Creek Clipper issues a very creditable pictorial edition this week. The Butlers are workers and passers the "know how" also.

Mr. Breckenridge tells the Tab-lequash papers he does not expect the opening of the land office until the final settlement of the Delaware case.

Commissioner Trotter, an important government witness in the Commissioner Leeds usurpation of office case, has disappeared and the latter is deaunting trial on his in fiction.

Recently two renters at Salina were tried for "stealing" the improvements they had made upon the places they were living on and discharged. The court held that the parties leasing had a right to remove improvements provided it was done before the lease expired. In this case the lease was made with the man who owned the place before allotment, but filed on by another, who wanted everything the place included.

HE'S ALL SORTS OF A MAN

Congressman Little In two Very Different Roles.

The Arkansas Gazette has the following story of "Boss" Little, the congressman from whom the Indian Territory is expecting so much relief by the removal of the restrictions on the sale of lands:

"I see that intoxicants can no longer be bought in the capitol at Washington," remarked a lobbyist at the capitol hotel yesterday. "Well, Congressman 'Boss' Little of Arkansas ought to be happy at last. He has been working for years, or ever since he went to congress, to accomplish that result. When he entered the national halls of legislation in 1894 as the successor of Major O. R. Breckenridge one of his first acts was to introduce a bill or resolution, I don't remember which, to abolish the capitol saloon. The W. C. T. U. organizations throughout the country testified to their appreciation of his efforts by adopting resolutions thanking him. Judge Little was a hero in the estimation of the temperance sentiment of the country. Pretty soon after that he was presiding over a Democratic state convention in Little Rock and introduced Adlai E. Stevenson, who was a visitor in the city, to the convention. As first assistant postmaster general under the first administration of Cleveland, Stevenson had made a great reputation as a wielder of the ax. The heads of Republican fourth-class postmasters fell into the basket at a rapid rate under his manipulation of the 'ax'. Stevenson was presented to the Democratic state convention by Judge Little in a speech which fairly made Rome howl.

"Gentlemen of the convention," he said, "I take pleasure in introducing to you a man under whose administration, if he were president, a Republican in office would not last longer than a snow ball in hell."

"That little speech went all over the country, and it is said to have taken Judge Little's friends some time to explain to the authors of the resolutions complimenting him on his work in the temperance cause that he was not addicted to the use of intemperate language. All the same, the speech made an immense hit among those Democrats who believed in the famous saying by William L. Marcy that 'to the victors belong the spoils.'"

THE BUGLER'S CHEST

Is well expanded. He uses his lungs to their fullest capacity. People in ordinary do not use much over half their lung power. The unused lung surface becomes inert, and offers a prepared ground for the attack of the germs of consumption. There is no need to warn people of the danger of consumption, but warning is constantly needed not to neglect the first symptoms of diseased lungs.

Dr. Pierce's Golden Medical Discovery cures obstinate coughs, bronchitis, bleeding lungs, and other conditions which, if neglected or unskillfully treated, find a fatal termination in consumption. It is entirely free from opiates and narcotics.

"About three years ago I was taken with a bad cough, vomiting and spitting blood," writes Mr. L. J. Robinson, of Spring Garden, W. Va. "I tried many remedies; nothing seemed to help me. I commenced using Dr. Pierce's Golden Medical Discovery. After using ten bottles and four vials of his Pleasant Pellets, I commenced to improve. My case seemed to be almost a hopeless one. Doctors pronounced it incurable. I was sick nearly two years—part of the time bedfast. Was given up to die by all. I thought it would be impossible for me to live over night at one time. I haven't spit any blood now for more than twelve months and worked on the farm all last summer. It was Dr. Pierce's medicines that cured me."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach. The "Medical Adviser," in paper covers, is sent free on receipt of 21 one-cent stamps to pay for mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.
